

Undertakings internal degree project within technical programmes at Uppsala University

§ 1 This undertaking applies to:

The student's name, hereinafter referred to as the Student	Personal identity number
The research team's leader, hereinafter referred to as the Project owner	Personal identity number

§ 2 During the degree project, the Student should participate in the work for the research team.....

§ 3 During the degree project the guidelines determined for technical programmes apply. These guidelines can be found on www.teknat.uu.se/student.

§ 4 The project owner undertakes to collaborate with the Student in accordance with the requirements which are regulated in detail in the project description. The parties are aware that the collaboration will result in a written report prepared by the Student.

§ 5 The Project owner should inform the Student about the safety provisions which apply for the Project owner.

§ 6 The Student is aware that he/she may gain access to information which the author(s) consider as a valuable asset, the value of which is dependent on it not being disclosed. Such information should be confidential.

The Student undertakes not to, both during his/her time in the research team and for ... (maximum three (3)) years thereafter, without the written consent of the owner of the information, disclose or disseminate confidential information. The Student is aware that this may affect the timing of publication in the open database DiVA.

The above does not apply to such information which

- upon receipt demonstrably was public knowledge or which thereafter without breach of this agreement became public knowledge;
- The Student demonstrably already possessed upon receipt;
- The Student, in a legal manner demonstrably received from a third party without obligation of secrecy;
- has been developed independent of the Project owner's information.

§ 7 The Student undertakes to, upon request by the Project owner, return confidential information, without retaining any copies thereof.

§ 8 The Student's participation in any publication of the results should be settled in a separate agreement.

§ 9 The ownership of the results will accrue to the party which generates them.

§ 10 The Student is entitled to utilise his/her results for own education and research.

§ 11 The written report should be made available for examination.

§ 12 The written report will be archived by Uppsala University.

This undertaking has been prepared in two copies, of which the Project owner and Student have taken one each.
